5. Business Operations of the Company:

5.1. Business Results for 2025:

Unit: billion VND

Indicators	Plan (PL) 2025	Actual (AC) 2025	AC 2024	Actual/Plan (%) 2025	Compared to 2024
Output	258.0	249.9	256.3	96.9%	-2.5%
Net Revenue	252.0	204.3	250.2	81.1%	-18.3%
Profit Before Tax	8.7	8.9	8.3	102.3%	+7.4%
Profit After Tax	5.6	5.8	5.6	104.1%	+4.5%

In 2025, the profit target of Development Investment Construction Number 2 Joint Stock Company was exceeded as approved by the 2025 Annual General Meeting of Shareholders, with after-tax profit reaching VND 5.8 billion, achieving 104.1% of the plan. However, the net revenue target was only VND 204.3 billion, achieving 81.1% of the plan. Compared to the same period in 2024, revenue decreased by 18.3%, while pre-tax and after-tax profits increased by 7.4% and 4.5%, respectively. In 2025, the company's revenue focused on construction activities, primarily from construction contracts with project owners,

including Cai Mep Logistics Joint Stock Company (VND 70.7 billion, accounting for 34.6% of net revenue), DIC Group (VND 70.3 billion, accounting for 34.4% of net revenue), and Ngan Hiep Real Estate Joint Stock Company (VND 27 billion, accounting for 13.2% of net revenue). The interest expenses incurred in 2025 amounted to VND 11.7 billion, a decrease of 0.8% compared to the same period. Of this, interest expenses exceeding 30% of EBITDA (Earnings Before Interest, Taxes, Depreciation, and Amortization) were disallowed as deductible expenses in accordance with applicable tax regulations, amounting to VND 5.1 billion, accounting for 43.5% of the incurred interest expenses. The high ratio of interest expenses exceeding the 30% EBITDA cap indicates inefficient use of borrowed capital and increases the company's tax obligations. It is recommended that the company review its capital structure, control interest expenses, and enhance operational efficiency to minimize non-deductible expenses in future periods.

– Asset and Capital Situation:

+ Assets: As of December 31, 2025, the company's total assets were VND 410.8 billion, an increase of 27.4% compared to the same period. This includes short-term assets of VND 301.9 billion, accounting for 73.5% of total assets, and long-term assets of VND 108.9 billion, accounting for 26.5% of total assets. Compared to the same period in 2024, short-term assets increased by 19.2%, and long-term assets increased by 57.7%.

+ Capital:

▪ The charter capital of Development Investment Construction Number 2 Joint Stock Company as of December 31, 2025, was VND 113.0 billion. The ownership ratio of DIC Group in Development Investment Construction Number 2 Joint Stock Company was 50.14% of the charter capital. In 2025, Development Investment Construction Number 2 Joint Stock Company completed an increase in charter capital from VND 109.7 billion to VND 113.0 billion through the issuance of shares to pay a 3% dividend for 2024.

▪ Liabilities: As of December 31, 2025, the liabilities of Development Investment Construction Number 2 Joint Stock Company were VND 288.3 billion, an increase of 42.2% compared to the same period. Short-term liabilities accounted for 100% of the total liabilities.

As of December 31, 2025, the company's Debt-to-Equity Ratio was 2.3 times, which falls within the safe threshold according to the company's financial regulations. The quick and current ratios of the Company were 0.8 times and 1.05 times, respectively, indicating that the company ensures overall solvency but has limited quick solvency, posing potential risks regarding capital in business operations. The company's ability to settle due debts heavily depends on the collection of receivables from customers (particularly the five major customers, including DIC Group, Cai Mep Logistics Joint Stock Company, Greenmark Joint Stock Company, Thien Binh Minh Joint Stock Company, and Phuc Dat Hotel Tourism Co., Ltd. – with outstanding debts as of December 31, 2025, amounting to VND 165.0 billion, accounting for 96.2% of short-term receivables from customers) and the progress of project settlements. Should the debt recovery from customers not meet the schedule, the Company may face difficulties in settling payables to suppliers and short-term loans.

5.2. Regarding the financial supervision and audit of the 2025 Financial Statements:

The Supervisory Board reports the results of the examination of the Company's compliance with accounting standards and practices in 2025 as follows:

– The Company has complied with the preparation and presentation of periodic Financial Statements in accordance with Vietnamese Accounting Standards, the Vietnamese

Enterprise Accounting Regime, and relevant legal regulations concerning the preparation and presentation of Financial Statements.

- The Company's periodic Financial Statements have accurately and fairly reflected the Company's financial position and business results at the respective times and periods. The disclosure of Financial Statements has also been fully and timely executed by the Company, in accordance with current regulations for listed companies.

- The Supervisory Board has no objections to the figures presented in the 2025 Financial Statements, which have been audited by an independent auditing organization.

- During the year, the Company was subject to administrative penalties for tax violations, indicating that there are still errors in the Company's tax declaration and settlement processes. The Company needs to clearly understand and fully comply with tax regulations and policies to minimize tax risks for the enterprise.

6. Report on transactions between the company, its subsidiaries, companies in which the public company holds over 50% of the charter capital, and members of the Board of Directors, Directors, other executives of the enterprise, and related persons of those subjects; transactions between the company and companies in which members of the Board of Directors, Directors, other executives of the enterprise are founding members or are enterprise managers within the last three years prior to the transaction:

The Supervisory Board concurs with the report on related transactions of Development Investment Construction Number 2 Joint Stock Company presented in the audited 2025 Financial Statements. In 2025, Development Investment Construction Number 2 Joint Stock Company conducted several transactions with Development Investment Construction – Concrete Joint Stock Company valued at VND 45.2 billion and several transactions with Development Investment Construction Number 1 Joint Stock Company valued at VND 151.9 million (related to a member of the Board of Directors of Development Investment Construction Number 2 Joint Stock Company). These transactions were approved by the competent authority and complied with regulations.

Details of the transactions are outlined in the Board of Directors' Proposal on related transactions.

7. Recommendations to the Board of Directors and Management Team:

- The Company is experiencing a high level of capital tied up in receivables and a trend of increasing financial leverage. To ensure capital for business operations and enhance operational efficiency, it is recommended that the Company intensify efforts to recover debts, establish measures to control the progress of debt recovery, expedite the finalization process, improve the capacity/quality of settlement documentation, develop a detailed plan for the use of credit limits, and prioritize capital allocation for projects with high efficiency and quick recovery periods.

- Given the current financial situation and outstanding receivables, it is advised that the Company draw lessons and conduct a cautious assessment of the financial capacity of the investors and the legal aspects of the projects before deciding to participate in new tenders from investors. Contractual terms regarding advances/payments with investors should be strictly bound to limit the need for excessive borrowing, which could affect the efficiency/ability to repay debts when investors delay/fail to make payments as agreed. Additionally, attention should be paid to contract management and legal matters related to acceptance/finalization to minimize capital being tied up during the construction process.

- Regarding debt offsetting with real estate: To mitigate risks and enhance the ability to mobilize loans, it is recommended to only offset debts with real estate products that have clear legal status and are eligible to serve as collateral at credit institutions.

- To mitigate tax risks for the enterprise, it is recommended that the Company review accounting documents, regularly update tax regulations to ensure accurate tax declaration and payment, and comply with current tax regulations.

- Comply with information disclosure regulations according to internal and legal requirements.

8. Supervisory Board's Activity Plan for 2026:

To fulfill the functions and duties of the Supervisory Board in accordance with the Enterprise Law and the Company Charter, the Supervisory Board proposes the following work plan for 2026:

2. Direction and Tasks to Implement the 2026 Business and Production Plans:

The leadership of DIC2 acknowledges that although the economy shows signs of recovery, the legal situation of real estate projects remains unresolved, and the capital situation of investors' projects faces significant difficulties due to tightened real estate credit and high loan interest rates. Therefore, the direction for the 2026 business and production plan must be approached with caution.

To implement and complete the aforementioned 2026 business and production plan tasks, the following tasks need to be effectively executed:

- ✓ Continue restructuring the organization to align with job requirements, management departments, and the actual work situation at the construction site.
- ✓ Develop detailed revenue and expenditure plans, and procurement plans for each contract package and each month to achieve the highest business efficiency.
- ✓ Strengthen and focus on developing the business department to engage with investors in the industrial construction sector and continue further investment in foundation treatment construction.
- ✓ Continue debt recovery as a key task in 2026, primarily to preserve capital, supplement business capital, reduce financial costs, and optimize corporate income tax, thereby enhancing registered business efficiency.

- ✓ Continue to focus on bidding to secure new contracts and projects with investment legality and bank financing.
- ✓ Seek partners and investors to effectively exploit invested real estate and fixed assets.
- ✓ Continue training and recruitment, gradually applying AI in production and management processes to save costs and enhance labor productivity.

The above constitutes the report on the implementation of the 2025 business and production plan and the directions and tasks for the 2026 business and production plan of the Executive Management.

On behalf of the Executive Management, we extend our best wishes to all company shareholders and esteemed delegates; wishing you health, luck, peace, and prosperity.

Total		278.0	200.6	278.0

- In order to proactively secure capital for business operations, the General Meeting of Shareholders authorizes the legal representative – the Chairman of the Board of Directors of DIC No. 2 – to be responsible for directing the development of feasible borrowing and debt repayment plans; to proactively negotiate and enter into loan agreements with lenders in accordance with applicable regulations; to use borrowed funds for proper purposes in an efficient manner; and to ensure the Company's ability to repay debts to credit institutions and other lenders.

- **For the "Other Short-term Loans" limit** (capital mobilization from employees, financial companies, and other individuals): The Authorized Representative - Chairperson of the Board of Directors of DIC Number 2 is authorized to proactively organize the capital mobilization with a maximum interest rate equal to the lending rate for the same term of the commercial bank currently financing DIC Number 2, and not exceeding 150% of the basic interest rate prescribed by the State Bank at the time of borrowing. The company's assets shall not be used as collateral for these loans, ensuring the total mobilization limit of other loans does not exceed VND 10 billion as per the loan limit plan approved by the General Meeting of Shareholders. The Authorized Representative - Chairperson of the Board of Directors of DIC Number 2 is responsible for directing the development of feasible borrowing/repayment plans, ensuring that the borrowed funds are used for proper purposes in an efficient manner, and ensuring the ability to repay loans to credit institutions and other lenders.

2. Asset Leasing Plan to Secure Collateral for Bank Loans and Capital Mobilization from Employees and Other Individuals in 2026:

Based on the 2026 business plan, the economic and credit situation in the real estate and construction sectors, and the financial status of investors in 2026, remain challenging. Meanwhile, receivables due are still high, and the company's assets are limited. Therefore, in addition to bank credit limits and other loans, the company also needs to lease additional assets to secure loans from credit institutions.

To maintain and increase the credit limit at banks and mobilize capital from employees, the Board of Directors submits to the General Meeting of Shareholders for consideration and approval of the policy:

- Agreement to lease assets from employees with asset values appraised not exceeding VND 15 billion to secure working capital loans of the company at commercial banks when there is a need to increase the credit limit and the company's assets are insufficient. The fee paid to employees who lease assets to the company annually is calculated based on the value of the secured assets that the bank lends to the company and will be accounted for as financial expenses with a maximum rate of 1.5% per annum multiplied by total actual loan value but not exceeding the appraised value of the secured assets as determined by the competent authority according to legal regulations.

- The General Meeting of Shareholders authorizes the Chairperson of the Board of Directors – the Authorized Representative of the company:

+ Enter into asset lease agreements and related documentation concerning the asset leasing procedures of employees to serve the purpose of maintaining and enhancing the limits of working capital loans at banks in accordance with legal regulations and the company's internal regulations, responsible for balancing loan limits using employees' assets as appropriate and effective collateral, ensuring the use of borrowed capital for the intended purpose, and ensuring the ability to repay debts using employees' assets as collateral for the loan.

+ Carry out procedures for mortgage and loan guarantees with credit institutions.

The Board of Directors respectfully submits this proposal to the General Meeting of Shareholders for consideration and approval.
